MOVEMENT RECEIVES SHARE SETBACK ON WALL STREET.

Weather a Strong Factor in Stock Market-Merger Suit Serves to Depress.

New York, April 21.-This was another day of very active and varied speculation in specks, but the campaign for the advance received rather severe check. The day start-ed off with indications of a repetition of the successful tactics adopted last week, one of heavy buying at heavy buying at some new points to offrealizing at others. It so happened, however, that the stocks in which realizing was attempted namely the Western and Pacific stocks, were acutely depressed by threat of harm to the crops and by the leave granted to the State of Washington to file a suit in the Supreme Court against the Northern Securities Company. The leaders of the campaign for the advance recovered their position to some extent late leaders of the campaign for the advance recovered their position to some extent late
in the day by a vigorous buying movement
in Southern Pacific up to 63% and in Reading and Manhattan, which were lifted respectively 4% and 3% over Saturday. This
induced a general covering movement in the
whole market and in substantial rallies
which materially reduced the losses but still
left prices generally below Saturday.

Setback Met Early in the Day.

The setback Met Early in the Day.

The setback came in the face of promising auspices for the advance. The Louisville incident seemed to have convinced some of the large Eastern banking interests that the time was ripe for an advance, although they had been Acclined to deprecate the movement inaugurated by Western capitalists as premature, on account of the amormed prospects for the crops. The steamship merger was accepted as addi-

tional indication of the confidence of large capital in continued prosperous conditions. The results of the day's operations in the market showed the importance of the outcome of the crop situation. The reports of hot winds in the winter wheat beit did not seem to greatly affect the grain market, perhaps owing to the large long interests in that market, but the simple recital of the temperatures touched at points in Nebraska, Missouri and Kansas was sufficient to cause a reflection of anxiety in the stocks of the roads running through that region. The weekly statistics of railroad traffic reporting a decline in the merchandise movement to the Southwest, was regarded as corroboration of the threat of harm to the crops.

to the Southwest, was regarded as corrountation of the threat of harm to the crops.

Showers Help to Make a Rally.

Scattered reports of showers may have had to do with the late rally in the market. The leave granted to the State of Washington to file suit against the Northern Securities Company is what was refused to the State of Minnesota in the previous attempt. The question of the legality of the company is now felt to be started toward a judicial decision. There is enough doubt over the outcome of the suit to serve as an unsettling influence, the more so in view of the additional projects now known to be on foot and dependent upon the settlement of this question. An incident of the day was the demoralization in the sliver market, which carried sliver buillion to folge an ounce, compared with the previous low record of Silge on Sept. 1, 1897, when Japan adopted the gold standard. The slump is said to be due to selling by China as a necessary incident to the payment of the indemnity to the Powers. The strength of Reading and Manhattan was due to buying by the same brokers who were heavy sellers of Union Pacific. There were rumors of absorption of Reading in Pennaylvania interest. The movement was foreshadowed in the circulation of arguments on the intrinsic value of property. The market closed active and about steady. New York Air Brake, International Power, the electric stocks, Keokuk and Des Moines and Nashville, Chattanoga and St. Louis made sensational and unexplained advances. The heavy selling of Union Pacific convertible bonds was the feature of the bond market. Total sales, par value, \$5,55,000. United States bonds were all unchanged on the last call.

Wall Street Gossip. Reported by the New York Commercial Advertiser through Francis, Bro. & Co., No. 214 North Fourth street:
Foreign-London prices for Americans were higher not only in New York orders, but on buying for Continental account. Stock sold in London was later purchased here, as our prices were lower. It was estimated that the arbitrage houses took in fully 75,000 shares. London continued to be a persistent buyer of iteading.

Union Pacific—The feature was the enormous realizing in Union Pacific by the Gates clique. Wasserman Bros. sold 55,000 shares, and other Gates brokers also were heavy sellers. It was estimated that the Chicago clique had marketed fully 60,000 shares of Union Pacific on the rise. The buying was by scattering commission houses. Realizing Sales—There was heavy profit-taking all around the room, the Chicago party being principally large sellers. It was in gossip that they had marketed 159,699 shares of various atocks to-day, mostly Union Pacific, St. Paul, Illinois Central and Colorado Fuel. There was also realizing by smaller speculators at the news of continued drought in the winter-wheat belt and on the announcement that the Supreme Court granted the State of Washington leave to file suit against the Northern Securities merger. Aggressive manipulation for the rise was resumed in the afternoon, and the tone of the market improved.

Reading—Eoth the common and the 2d pfd.

Reading—Eoth the common and the 2d pfd.
made new high record prices. The common was
the feature of early afternoon, rising sharply on
heavy buying of same character noted for some
time past. London took large amounts. Mr.
Morgan's presence there was believed to be re-

tional indication of the confidence of large sponsible for the English bullishness on the stock The only goesip consisted of the repatition of re-cent rumors and talk that no strike would be ordered in the anthracite region. Afternoon Features—Southern Pacific came in for pronounced activity and strength in the last hour on what was regarded as manipulation by Mr. Keene by proxy. Manhattan was another active strong feature on heavy buying credited to the Gates crowd.

Miscellaneous—The early reaction in Illinois Central was due to open seiling by Gates brokers. Harriman was again bullish, but steady buyers. St. Paul declined on seiling of 19,000 shares by keech, Loew & Co. and of about 15,000 shares by brokers often used by the Chicago clique.

LOCAL STOCKS DECLINE,

TRADING MOSTLY IN SMALL LOTS.

United Railways Works Lower and List Shows Effect of Profit-Taking.

Trading in local stocks was desultory, with few changes in values at the morning session and a general easing off in the afternoon. Missouri Trust was again hammered and closed weak, despite attempts to stendy the market. The stock opened nervous, with half a dozen brokers feeling their way before venturing to close deals. There was enough early buying to carry the price up to \$115, but from that point there was a rapid slump to \$112, which was the same

a rapid slump to \$112, which was the same as Saturday's closing figures.

Transit and United Railways pfd. were neglected and the 4 per cent bonds were neglected and the 4 per cent bonds were steady at \$83.5°. Other issues were practically unchanged. Germania Trust sold a trifle lower at \$20.5°. Colonial was steady at \$23 and \$22. Chicago Railway Equipment was active and in demand at \$7.70.

At the afternoon session the feature was a further heavy accline in Missouri Trust, which dropped to \$105.5°. \$4.50 below Saturday's close. Title Guaranty was in very light demand, with \$100 the best bid. Tractions took the downturn. Transit was easy at \$50.62% and preferred sold off from \$83.27%; to \$83.12%.

Chicago Railway Equipment continued strong, with an advance to \$7.75.

Har Silver.

New York, April 21.—The price of silver in London to-day dropped % of a penny to 22 5-16 pence, and in New York 1% to 50 9c. The slump is due to selling of the metal by China, incident to the payment of the Indemnity. The taxes in China being collected in silver and the supply of exchange being insufficient to make the remitance of the indemnity, the silver has to be old to make the exchange. The London market closed firmer at 23 7-18d per ounce.

Decatur, Ill., April 21.—Solomon Welgle died to-day as a result of being hit on the side of the head by fragments of his waron in a storm Friday. He was on a public road near Decatur driving a team. Just as he was passing William Schultz in a buggy, a tornado that seemed to drop on them from the sky tore the buggy and wagon to pieces. Only small fragments of the vehicles could be found. Schultz came to consciousness some distance away in a field, unhurt. Weigle lay unconscious in the weckage of the road. He never spoke and died the manning. One of the horses died the next day. No sign of injury could be found, and it is supposed that he died of fright. Weigle was a prominent farmer, living six miles from Decatur. REPUBLIC SPECIAL
